

## Report to Council From the Office of Mayor Rob Vagramov

---

Date: April 23, 2021  
Subject: Statistics Canada 2021 Census

---

On April 22, 2021 my office received the attached email from Statistics Canada regarding 2021 Census.

The census collection is set to start on May 3, 2021 which will help support programs related to infrastructure and development throughout Canada. This data supports numerous municipal programs related to our infrastructure and public transportation and is a way to measure Canada's sustainable development and environmental goals.

The data will be collected through a questionnaire from Statics Canada online application. This questionnaire will also be accessible by over the phone or a request of a paper questionnaire from Statistics Canada can be made. The request from Statistics Canada was to help support them in the success of the 2021 Census by spreading the word in the community.

Therefore I am recommending the following:

**THAT the City of Port Moody support the 2021 Census and encourage all residents to complete their census questionnaire online, as accurate and complete census data support programs and services that benefit our community, as recommended in the report dated April 23, 2021 from Mayor Rob Vagramov regarding Statistics Canada 2021 Census;**

**AND THAT staff be directed to re-post social media posts from Stats Canada related to the 2021 Census.**
