Port Moody Aquarians	12	\$1,000
College Park Community Association	8	\$500

CAG Comments on the Community Grant Program

All are worthy of a grant but I would like to see it given to support activity within PoMo
I actually hope they do not fence the community garden as it would seem less accessible and certainly would be less noticeable.
Admiral collection of local not for profit groups; all deserving really of an infusion of support; and in addition, our thanks for the provision of such needed services and intentions.
Thank you for the opportunity to participate— such hard choices to make with all applicants being so worthy.
There were no applications from environmental organisations promoting conservation or sustainability. Since Port Moody has many natural areas, including the inlet, it would be great to encourage applications from groups working to look after our natural environment.
A difficult choice this year!
This year's list of applicants were all well deserving and I know how difficult it must be for all of them to try and maintain fundraising efforts through a pandemic. I thought they all did an excellent job of providing background information on what their objectives are and I did learn about new organizations who have applied for the first time. It was hard to choose between them. I think this is a good process to gather a selection for council to approve funding allocation.
I truly believe all three of my choices are key services which must be considered.
These selections would aid the more challenged in our community and make life more tolerable
I really support all community activities; however, at my age I now like to put emphasis on those initiatives I believe help the most people in Port Moody, especially the elderly.
Given the effects of COVID-19 and it's corresponding variants that has/is and will take a serious toll on our social network within our Community the preferences listed as suggestions above total \$10,150. perhaps some consideration may be given to the following two additions; ~ Pacific Post Partum Support Society \$1,000. ~ Big Sisters of BC Lower Mainland \$3,000. This would give us a final total of \$14,150. of the \$18,000. in total funding that is available for this portion of our City's grant program. I thank you all in advance for this consideration.
With Kindest Regards, FPPAS.21
I would like first time applicants prioritized
