Subject: Brown's Social House awning proposal

Dear Port Moody Council,

I am in favour of this request for a variance to support the efforts of an excellent owner, manager and staff. Brown's has been a wonderful, sociable meeting place for Inlet Centre and other Port Moody residents for years and this extension of the patio awning will allow for more usable outdoor space in all weathers. I have contacted the Port Moody Planning Dept. so understand the parameters of the proposed awning request.

Sincerely,

Claire Cummings

To Whom It May Concern

Re: DVP to Allow Patio Awning at Browns Social Club, 215 Newport Dr.

I am **not** in favour of this request as it will allow for more outdoor gathering at Browns.

This business already causes late night noise that disturbs the residents in neighboring condos, including me. An awning outside Browns will surely increase the number of people able/willing to gather outside, therefore increasing the noise level and frequency.

Please vote against this request.

Subject: Support for Notice of Development Variance Permit No. DVP000014

We are the owners of s.22- Personal information in Port Moody, and would like to confirm that we support the application from Browns Social House to allow for the patio awning structure proposed (DVP000014) to be constructed.

Sincerely,
Vern and Debbie Oster

Subject: Patio awing structure to extend into a required set back area

To the city of Port Moody,

We have supported Brown Social House before and during the pandemic.

But our biggest issue with them over the years has been the outside patio music that often is playing after 11 pm at night, considering how sound travels and we are right across from Browns, this was a major issue, which was effecting our sleep.

We have placed many phone calls to them over the years.

At times they were good with shutting off the music, at times they forgot, we have asked them to put an automatic stop to the sound system, we were told they could not do this, even the fact that we live in the year 2023,...

No matter what, what needs to be respected is that this is still an residential area, people work, people want to relax and sleep.

This in our opinion as residents living in New Port Village is our number one concern.

That said, we will support Browns awning proposal ONLY, if they respect the people that live in this "village", and regard the 11 pm end time of a patio use and the music.

Sincerely ,

Swetlana Boot & Robert Shield s.22- Personal information Port Moody.
