

## Purpose

The Sustainability Report Card recognizes that developers, builders, designers, and others proposing changes to the built environment have an important role in creating a sustainable community. Buildings are a vital part of our community, providing shelter, employment, recreation opportunities, services, shopping and more. With the amount of time we spend in our buildings they play an essential role in how prepared we are for our changing climate, influence the vitality of our community, and shape our everyday lives.

The buildings we build today will be around for the next 60–80 years on average and it is crucial for the evolution of our community that these structures are built to the highest sustainability standards. In 2020 Council adopted the City’s Climate Action Plan, a comprehensive strategy laying out a pathway to become a carbon neutral, resilient community by 2050. This Plan includes various building-related actions that project proposals should incorporate to work towards the vision that:

“Port Moody is a resilient community that honours climate justice, leading the urgent response to climate change through collective action.”

– Climate Action Committee, 2019

Port Moody encourages innovative thinking in community design to achieve sustainable communities. To this end, the Report Card is a requirement for rezoning, development permit, heritage revitalization agreement, and heritage alteration permit applications. The Report Card identifies performance measures based on community sustainability values, and these measures are used to evaluate development proposals. The Report Card is a tool that summarizes overall project sustainability and is integrated with all other development approval requirements.

**The Report Card focuses on performance criteria within four pillars of sustainability defined by the City as:**

### 1. Cultural Sustainability

Cultural sustainability recognizes the need to honour and transmit cultural beliefs, practices, heritage conservation, and culture for future generations. Cultural sustainability is about fostering cultural rights, local culture and cultural identity in a community. Cultural sustainability can be achieved through innovation and preservation of identity through different forms of creative expressions (e.g., art, events), celebrating cultural customs, and preserving and transmitting cultural heritage and customs through design of culturally inclusive landscapes, architecture, programs, and amenities.

### 2. Economic Sustainability

Economic sustainability in the Port Moody context means offering a broad range of local employment opportunities that will reduce commute distances and times, encouraging creative and clean industry and jobs, and building a more sustainable financial future for the City. The impacts of this approach will reduce GHG emissions, enable active transportation as a more viable means of getting around, build more resilient local business communities, and strengthen the social fabric of the city.

### 3. Environmental Sustainability

Environmental sustainability refers to the protection, management, and monitoring of ecosystems and natural assets to ensure the long-term productivity and health of resources to meet future economic and social needs. Environmental sustainability involves protecting, restoring, and connecting environmental systems to maintain function and ecological integrity. It also acknowledges that human civilisation takes resources to sustain our modern way of life, recognizes the elements that place stress on the environment and incorporates how technology will drive our greener future.

### 4. Social Sustainability

Social sustainability is about inclusive and resilient societies that understand what citizens need from the places where they live, work and play and where citizens feel supported in their well-being and are encouraged to evolve. Social sustainability combines physical design with support mechanisms to enhance social liveability, amenities, and systems that actively support the capacity of current and future generations to create healthy and livable communities. Socially sustainable communities promote diversity, equity and inclusion, foster connectivity and provide a high quality of life.

## Process

The Sustainability Report Card forms part of the application materials for rezoning, development permit, heritage revitalization agreement, and heritage alteration permit proposals. There are five steps to follow in completing the Sustainability Report Card process:

1. Consult with City planning staff to discuss your proposal and determine if a Sustainability Report Card must be submitted with your development application.
2. Following the initial conversation with staff, and while preparing your application, complete the Sustainability Report Card by filling in the appropriate information that applies to your application and submit a completed copy to your file manager.
3. The Sustainability Report Card will be marked three times:
  - a. Prior to first reading;
  - b. Prior to Advisory Design Panel and Land Use Committee; and
  - c. Final scoring prior to Development Permit issuance.

At each of these marking intervals Planning staff will review the Report Card for completeness and accuracy and forward to staff in various departments for marking. Staff will make comments, determine a score, and provide the applicant an opportunity to revise the Report Card. The score and comments will be included in the land use reports that are distributed to the Advisory Design Panel, Land Use Committee, and City Council.

4. Commitments indicated in the Report Card will be secured through various means including, but not limited to, Development Permit conditions, securities, and various agreements (e.g., Servicing Agreement) or covenants. The method of securing the commitment is noted for each criteria.
5. If your application is approved by Council, your final Sustainability Report Card is maintained in the development file and a copy is provided to the City's Building Division.

## Instructions

---

- Your Report Card must contain sufficient detail to ensure each measure can be evaluated. Make reference to the appropriate plans, drawings, and reports that demonstrate how the performance measure is met where appropriate.
- The relevance of the questions will depend on the nature and scope of your project, so not all questions will be applicable to all projects. In this case, select N/A and the points will be subtracted from the overall points available to increase fairness. Some criteria do not include N/A as an option as this is expected/possible on each project.
- Key terms are defined in the [Glossary](#) at the end of the Report Card document.
- Refer to the Resources section in each criteria for links to web-based resources relevant to measures in the Sustainability Report Card.

## Scoring

---

- Scoring of the Report Card reflects a project's overall ability to be a sustainable development. Criteria are assigned points to indicate their significance based on:
  1. the level of difficulty to integrate criteria into project design;
  2. the order-of-magnitude cost added to the project;
  3. alignment with identified City and community priorities;
  4. the level of urgency for Port Moody in terms of achieving community sustainability goals; and
  5. the degree of effectiveness for increasing overall project sustainability.
- Performance measures are ordered based on priority. The first performance measure under each topic area in each pillar is the highest priority. The highest priority performance measures typically offer the highest possible points.
- City staff score the completed Report Card based on the principle of best achievable on each site for each performance measure. Points for achieving various means are indicated. Where open ended responses are permitted, staff will make a fair assessment of the project's performance for the measure with respect to site conditions.
- Where criteria may not be applicable to your project due to constraints, select the N/A option and the points will be subtracted from the overall points available to increase fairness. Some criteria do not include N/A as an option as this is expected/possible on each project.
- The Report Card is an iterative process with the applicant. The applicant has an opportunity to comment and make changes to their proposal before the scores are considered final and shared with public advisory bodies and City Council.
- Additional space is provided for the applicant to address innovations and constraints not captured elsewhere in the Report Card. Innovation items have a maximum score of 3 points. Constraints are not scored but given specific mention in Council Reports. Applicants are required to provide a narrative of how the project is contributing to each pillar of sustainability.
- Staff will review your completed Report Card and provide feedback to give you the opportunity to achieve the highest score possible by the time the project is considered for adoption or permit approval.

## **Monitoring**

---

In general, the information required from the applicant for the Sustainability Report Card is similar to the information required for a typical development application. However, to ensure accountability, the City may request additional information, such as: photos of installed systems or products, design drawings, professional reports, copies of receipts, or other records that can be used to verify the implementation of the selected sustainability criteria. We encourage you to provide as much information as possible to assist City staff in their review of your development proposal.

## **Public Information**

---

Copies of the Report Card are maintained by the Development Planning Division and are included as an attachment to Council reports related to the application. Therefore, Report Cards are part of the public record.

# 1. Cultural Sustainability

## Arts

### C1a *(applicants can choose between C1a or C1b)* **(12 points possible)**

Does the project designate space for artists or creative enterprises to be retained for the lifetime of the project?

☐ Yes

☐ No

☒ **N/A** *(applicants can choose between C1a or C1b)*

If yes:

**Check all that apply:** *(up to 12 points)*

☐ artist studios *(2 points for first studio + 1 point for each additional studio, max 8 points)*

☐ family-size live-work units – sold below market value *(3 points per unit, max 8 points)*

☐ family-size live-work units – sold at market value *(2 points per unit, max 6 points)*

☐ plaza, creative placemaking space, available for public use (e.g., outdoor stage) *(4 points)*

☐ temporary artist spaces on or off the site *(2 points)*

☐ publicly viewable exhibition space *(2 points)*

☐ developer identified need/opportunity *(up to 4 points)*

Please specify: \_\_\_\_\_

**Provide the size and details of the proposed space(s):**

**For the spaces being provided in this project, how will operation be managed?** (e.g., who is responsible for managing tenants, maintenance, etc)?

### Resources

[Developer Public Art Guidelines](#)

[Art in Public Spaces Master Plan](#)

[Arts and Culture Master Plan](#)

### Enforcement

- Units (market and below market) will be secured through a Housing Agreement.
- Plaza/creative/exhibition space & temporary artist space will be confirmed through the Development Permit.
- Elements on Landscape Plans will be subject to securities.
- Formal written confirmation of arrangements for managing spaces will be required.

### Staff comments

Applicant has mared N/A for this question

Score  /12

**C1b** (applicants can choose between C1a or C1b) (6 points possible)

Does the project include artwork which is aligned with the Art in Public Spaces Master Plan and located in a publicly accessible or publicly owned space? (Note: Public Art Policy encourages at least 0.5% of construction costs) (4 points)

☒ Yes

☐ No

☐ N/A (applicants can choose between C1a or C1b)

Applicants are encouraged to work with artists and/or art consultants early so that artworks can be incorporated in meaningful and creative ways. **Has an artist or art consultant been engaged for this project?** (2 points)

☒ Yes

☐ No

OR

Does the project provide an in lieu financial contribution to the City's Artwork Reserve Fund in accordance with the City's Public Art Policy? (4 points)

☐ Yes

☐ No

☒ N/A (applicants can choose between C1a or C1b)

What is the proposed contribution to the City's Artwork Reserve Fund? (Note: Public Art Policy encourages at least 0.5% of construction costs) (up to 2 points)

(2 points if contribution is at least 10% greater than recommendation)

\$ amount: \_\_\_\_\_ % of construction budget: \_\_\_\_\_

## Resources

[Developer Public Art Guidelines](#)

[Art in Public Spaces Master Plan](#)

[Arts and Culture Master Plan](#)

## Enforcement

- Formal written commitment to engage in a process to include public art will be required. Confirmation of the value of this commitment and securing this commitment through a letter of credit submitted prior to issuance of Development Permit will be required.
- Collection of public art funds prior to issuance of development permit will be required.

## Staff comments

Applicant has provided strong elements that align with the Art in Public Spaces Master Plan and have indicated the Public Art Consultant "Ballard Fine Art" (found within the rezoning booklet section 2.7 pages 22) full marks

Score **6** /6

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Elements on Landscape Plans will be subject to securities.

## Staff comments

Provided details are strong and elements will need to be confirmed. Applicant is advised not to reduce or remove proposed features (see section 2.7 page 22-3)

Score  /2

## Enforcement

- Elements on Landscape Plans will be subject to securities.
- Elements included in Civil Plans will be secured through the Servicing Agreement.

## Staff comments

Yes, please see above comments for location within the rezoning booklet.

Score  /2

## C2

(2 points possible)

**Does the project include artistically designed (professionally designed) architectural elements that enhance the overall visual appeal of the development (e.g., water feature)?**

☒ Yes

☐ No

**If yes, describe how:**

Limited detail will be available as part of the preliminary rezoning application.

Presently the project team is considering a cascading water feature accessible to the public. The feature will establish a thin sheet of water "rippling" across textured hardscapes to give the illusion of flowing water in the plaza space. When not in use the feature remains accessible plaza space.

The project team is coordinating with adjacent developments to establish a strong identity for the site which aligns well with the surrounding developments.

## C3

(2 points possible)

**Does the project include artistically designed (professionally designed) street furniture and/or streetscape enhancements (e.g., artistically designed benches, streetlights, tree grates)?** *(Note: consider maintenance and replacement of furniture/enhancements)*

☒ Yes

☐ No

☐ N/A

**If yes, describe the furniture/enhancements and how they will be maintained:**

In line with the approach above the project team will develop a framework for creating unique and engaging streetscapes cohesive with the other developments in the area while providing space for artistic expression. Creating a framework to support more diverse seating and expression areas.

Some preliminary expressions of the site's culture have been integrated into the landscape plan through bench seating formed as railway ties- an acknowledgement of the areas historic use as oriented around access to the rail which passes through Port Moody.

## Resources

[Art in Public Spaces Master Plan](#)[Arts and Culture Master Plan](#)

## Enforcement

– N/A

## Staff comments

Applicant provided resources are strong and should be reflected here in provided answer with definitive vision. score is contingent on applicants ability to follow-through.

Score  /2

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Elements on Landscape Plans will be subject to securities.

## Staff comments

Score  /1

## C4

(2 points possible)

**Describe how your project aligns with the Art in Public Spaces and/or Arts and Culture Master Plans, or otherwise contributes to the overall cultural and artistic vitality of Port Moody:**

The project's arts strategy is in development in coordination with other communities proposed for the area. by collaborating on a consolidated arts strategy a more distinct culture can be create for the Port Moody Center community.

Further artistic installations are being evaluated for the central plaza, the East & West Plazas or the terminus of Electronic Avenue at the rail tracks. Further design development will determine which of these spaces are best suited to the art strategy.

## C5

(1 point possible)

**Does the project include artistic elements for the benefit of the residents/ occupants (e.g., artistic features in a private courtyard or main entryway)?**

☐ Yes☒ No

**If yes, please describe:**

Art works will be public realm oriented

## Heritage

## C6

(3 points possible)

Have you consulted with City staff to determine if any of the structures on the subject property may have heritage value?

- ☐ Yes
- ☐ No
- ☒ N/A

If yes, does the project include a statement of significance for heritage structures not listed on Heritage Register, prepared by a heritage conservation specialist where potential heritage value is observed?

- ☐ Yes
- ☐ No
- ☒ N/A

## Resources

[Heritage Register](#)

## Enforcement

- Submission of Statement of Significance with application will be required.

## Staff comments

Applicant has selected N/A

Score  /3

## C7

(3 points possible)

Does the project include a heritage conservation plan prepared by a heritage conservation professional for a structure on the property of the application or on another property in the City?

- ☐ Yes
- ☐ No
- ☒ N/A

If yes, provide the address of the structure included in the heritage conservation plan:

Address: \_\_\_\_\_

## Enforcement

- Submission of a conservation plan will be required with application.

## Staff comments

Applicant has selected N/A

Score  /3

## Enforcement

- Details will be included in Heritage Conservation Plan and formalized in a Heritage Revitalization Agreement or Development Permit. Formal protection typically involves heritage designation following completion of conservation work.

## Staff comments

Applicant has selected N/A

Score  /3

## Resources

*Conservation of Historic Places in Canada:* [historicplaces.ca](http://historicplaces.ca)

## Enforcement

- Written confirmation of commitment to relocate structure and details of plans for the building in its new location will be required.

## Staff comments

Applicant has selected N/A

Score  /2

## C8

(3 points possible)

Does the project include reusing an existing heritage structure with heritage value through heritage restoration or heritage rehabilitation? (3 points)

- ☐ Yes
- ☐ No
- ☒ N/A

## C9

(2 points possible)

Where the preservation of a heritage structure in its original location cannot be accommodated, relocation may be considered.

Does this project include heritage relocation within Port Moody? (2 points)

- ☐ Yes
- ☐ No
- ☒ N/A

## Enforcement

- Depending on what is proposed, incorporating these elements could be shown on landscape and/or architectural plans included in the Development Permit.
- Landscaped elements will be subject to securities. If the artifacts are used in public art then they will be secured through Public Art Securities.

## Staff comments

Applicant has selected "NO" but should choose N/A for proper weighting

Score 0 /2

## Resources

[Heritage Register](#)

## Enforcement

- Confirmation of intention to add the heritage structure to the Heritage Register will be required.

## Staff comments

Applicant has selected N/A

Score 0 /2

## C10

(2 points possible)

Does the project salvage materials or artefacts from a historic place in Port Moody, or reuse materials or artifacts from architectural/landscape salvage in a manner which supports the authenticity of the site's character-defining elements?

☐ Yes

☒ No

☐ N/A

If yes, please explain:

(up to 2 points)

## C11

(2 points possible)

**Does the project involve the addition of a heritage structure to the City's Heritage Register?** This only applies to a structure with heritage value that is NOT already on the City's Heritage Register.

☐ Yes

☐ No

☒ N/A

## Enforcement

- Follow up will depend on the method used to acknowledge cultural connections to the site. Determined by staff.

## Staff comments

Applicant resources demonstrate instances of the question. Recommend that applicant pursue this (0 for now)

Score  /2

## C12

(2 points possible)

Does the project incorporate acknowledgement of historical or cultural connections to the site (e.g., historical naming of the site, people, events, structures, architectural inspiration etc.)?

☐ Yes

☒ No

If yes, please explain:

(up to 2 points)

Art installation may include some acknowledgement but the final strategy is yet to be determined.

## Public Realm

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Elements on Landscape Plans will be subject to securities.
- Elements included in Civil Plans will be secured through the Servicing Agreement.
- Artistic elements will be secured through Public Art securities.

## Staff comments

Elements are visually represented in Rezoning booklet. However, artistic panels are not visible and will need to be clarified by applicant. In addition, applicant should clarify with staff what "other" entails.

Score  /8

## C13

(8 points possible)

Does the project improve the streetscape beyond minimum City requirements by integrating lasting creative elements and demonstrating effort to optimize the project's beautification impact?

☒ Yes

☐ No

If yes, check all that apply:

(up to 4 points)

- ☐ Artistic stormwater management features (1 point)
- ☐ Restores the frontage of an existing building in Historic Moody Centre (2 points)
- ☒ Proposed artistic paving treatments (1 point)
- ☒ Adds aesthetics to functional elements of the streetscape (1 point)
- ☒ Aesthetically pleasing and functional benches, bike rack, planter, lighting etc. upgrades (1 point)
- ☐ Interaction of the project with the public e.g., edible landscape/foliage (1 point)
- ☒ Artistic panels in entry foyer (1 point)
- ☒ Other (up to 1 point)

Are the streetscape elements designed by a local artist?

(4 points)

☐ Yes

☒ No

**C14****(3 points possible)**

**Does your project include any innovative cultural sustainability aspects not captured in the Report Card?**

☒ Yes

☐ N/A

**If yes, please explain:**

*(up to 3 points)*

The project team and ownership group has fostered a working relationship with the developments proposed immediately adjacent to the site. The goal of the relationship is to help establish a more uniform approach to community making and better collaborate around artistic themes and communication strategies making for a more culturally cohesive neighborhood beyond the project boundary.

**Enforcement**

– Will depend on the type of innovation, determined by staff.

**Staff comments**

Points are conditionally given. Applicant needs to explicitly state an example with supporting documents for staff to confirm. The vagueness of language here needs to be addressed. C16 is a good example of how to answer the following.

**Score**  /3

**C15**

**Does your project face any unique site constraints that limit cultural sustainability achievement?**

☐ Yes

☒ No

**If yes, please explain:**

**Enforcement**

– N/A

**Staff comments**

[Official Community Plan land use plan map](#)

[BC Assessment Property Classification](#)

## Enforcement

– N/A

## Staff comments

Half scores provided. Applicant can achieve full score by providing "estimated"

## EC3

(5 points possible)

**What is the estimated increase to the current and proposed property assessed value, as would be determined by BC Assessment (market value) for each property classification?**

*(Note that only estimates are required for proposed assessed value as actual assessed values would not be available at this point in the project)*

**Current (Land & Improvement)**

Class 1 – residential assessed value: \$15,000,000+\$2,000,000+\$31,000,000 \_\_\_\_\_

Class 2 – utilities assessed value: \_\_\_\_\_

Class 3 – supportive housing assessed value: \_\_\_\_\_

Class 4 – major industry assessed value: \_\_\_\_\_

Class 5 – light industry assessed value: \_\_\_\_\_

Class 6 – business other assessed value: \_\_\_\_\_

**Estimated Proposed (Land & Improvement)**

Class 1 – residential assessed value: \_\_\_\_\_

Class 2 – utilities assessed value: \_\_\_\_\_

Class 3 – supportive housing assessed value: \_\_\_\_\_

Class 4 – major industry assessed value: \_\_\_\_\_

Class 5 – light industry assessed value: \_\_\_\_\_

Class 6 – business other assessed value: \_\_\_\_\_

*Project provides more assessed value in a non-residential class (2,4,5,6) = 3 points*

*Proposed assessed value is higher than current assessed value = 2 points*

*Proposed assessed value is the same as current assessed value = 1 point*

*Proposed assessed value is lower than current assessed value = 0 points*

Score  /5

## Local Economy

## EC4

(20 points possible)

Does the project increase the number of and variety of skilled employment on land designated as Industrial, Mixed Employment, or Mixed Use in the City's Official Community Plan?

☒ Yes

☐ No

If yes:

List the estimated number of jobs: (up to 5 points)

# of existing jobs on site: 0- blank parking lot

# of proposed jobs on site: 152- Based on Default ASHRAE intensities

% of jobs retained: 100

*If # of existing jobs is not retained = 0 points*

*If # of existing jobs is retained = 3 points*

*If # of jobs is increased beyond existing = 5 points*

Using the North American Industry Classification System (NAICS), list the type of jobs created. Classification to the Sector (first) level is sufficient.

Project is proposing Office (53,54,or55), Food and Beverage (445) and Retail spaces likely to be a Pharmacy (45611).

List the jobs to population ratio on site: (up to 15 points)

*Up to 0.5, each 0.1 = 1 point; Above 0.5, each 0.1 = 2 points*

Estimated Residential Population- 2300

Estimated Full time Jobs- 152

Job to Population Ratio= 1:15.2

Are the Industrial, Mixed Employment, or Mixed Use areas leased or owned?

☒ Leased

☐ Owned

☐ Other – please describe:

Have you identified potential occupants for each land use?

☒ Yes

☐ No

If yes, list all potential occupants identified and their intended use:

Anchor Retail space is expected to be a pharmacy or other retail intended to suite the needs of the community. Office will likely be a small scale service provider like Dentist, Doctors, and lawyer, real-estate, etc.

## Resources

[NAICS](#)

[Metro Vancouver Industrial Lands Strategy](#)

## Enforcement

– Commitment confirmed through Building Permit Plans re: space/occupant designation

– For owner spaces, proof of registration of the Strata Plan at Land Title & Survey Authority submitted.

## Staff comments

Applicant has given good direction to potential occupants and identified areas as leased.

Applicant has expressed that existing conditions of lot is parking and does not provide existing jobs. However, location currently has multiple businesses.

"If # of existing jobs is not retained = 0 points"

Score 15 /20

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Occupancy will be confirmed as a part of the Building Permit.

## Staff comments

Applicant has marked NA

Score  /12

## Enforcement

- Architectural elements will be secured through the Development Permit.

## Staff comments

See architectural and Landscape plans. Applicant has provided documentation for provided choices.

Items concerning "wraparound glazing" will need to be confirmed through DP. Scoring is conditional

Score  /7

## EC5

(12 points possible)

Does the project retain industrial uses on site?

- ☐ Yes
- ☐ No
- ☒ N/A

If yes:

Will the zoning restrict a portion of the project to light industrial uses?

(5 points)

- ☐ Yes
- ☐ No

Will the industrial use(s) be multi-level (E.g., mezzanine)? (up to 5 points)

- ☐ Yes
- ☐ No

Will the proposed tenants intensify the use of industrial space? (2 points)

- ☐ Yes
- ☐ No

What is the industrial floor space ratio (FSR)? \_\_\_\_\_

## EC6

(7 points possible)

Do the sizes and configuration of retail units in the project support a variety of occupants, employment, and uses for those units?

- ☒ Yes
- ☐ No
- ☐ N/A

If yes, check all that will be incorporated: (up to 7 points)

- ☐ Ceiling heights of at least 12' (floor to ceiling, not floor to slab) (1 point)
- ☐ Appropriate setbacks to allow for seating, patios, public art, and other streetscape features and amenities (1 point)
- ☒ For corner developments, a corner retail storefront with wraparound glazing (1 point)
- ☒ Variety of storefront widths, depths, ventilation, and glazing treatments etc. to meet the needs of different tenants (1 point)
- ☐ Exterior lighting is positioned and integrated to enhance architecture and storefront design (1 point)
- ☐ Storefronts are adaptable to accommodate different signage types to support tenant's branding while maintaining neighbourhood character (1 point)
- ☐ Adaptable to emerging retail trends e.g., online orders (1 point)

## EC7

(6 points possible)

Does the project contribute to a circular economy?

☒ Yes☐ No

If yes, check all the circular economy initiatives: (up to 6 points)

- ☐ re-use of resources (deconstruction for re-use, materials made from recycled/reclaimed materials, materials made from natural inputs) (2 points)
- ☐ local repair café (2 points)
- ☐ collaboration between local enterprises/industry (2 points)
- ☐ design for the future/design for deconstruction (2 points)
- ☒ maker-space/tool library (2 points)
- ☐ foster a sharing initiative (e.g., car share, bike share etc.) (2 points)
- ☐ Other – please describe: (up to 2 points)

2 maker-space retail units 1,700sf and 1,100sf in size

## Resources

[Canadian Circular Economy](#)

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Waste related initiatives may be subject to securities.
- Other elements may be secured with a Section 219 Covenant.

## Staff comments

Applicant needs to address the two maker-space units. Staff is unable to observe.

Score 0 /6

## EC8

(5 points possible)

Is the project expected to contribute to the daytime economy (i.e. daytime population comprised of workers and students) and/or the nighttime economy of Port Moody (i.e. commercial activities in the evening e.g., restaurant, entertainment, sports, culture, shops, etc.)?

☒ Yes☐ No

If yes, check any of the following sectors that you may be targeting: (up to 5 points)

- ☒ Incorporate office, institutional or light industrial space (5 points)
- ☒ Food and beverage establishment (e.g., restaurant, coffee shop, etc.) (3 points)
- ☐ Tourism business (1 point)

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Elements related to occupancies will be confirmed through the Building Permit.

## Staff comments

Applicant is proposing very little office, although an important goal by City. choices concerning other sectors is observed. Score earned for "Food and beverage establishment"

Score 3 /5

## EC9

(4 points possible)

Does the project provide a regional destination for commercial or institutional land uses?

☐ Yes

☒ No

If yes, please check all that apply:

(up to 4 points)

☐ specialized training/education

(2 points)

☐ specialized art

(2 points)

☐ culture/heritage

(2 points)

☐ recreational opportunities (e.g., high performance training centre)

(2 points)

☐ Other – please describe:

(up to 2 points)

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Elements related to occupancies will be confirmed through the Building Permit.

## Staff comments

Score 0 /4

## EC10

(3 points possible)

Will the project attempt to source local (Port Moody) labour, supply and materials?

☒ Yes

☐ No

If yes, check all that apply:

(up to 3 points)

☐ Local supply of materials

(1 point)

☒ Local labour

(1 point)

☒ Local contractors

(1 point)

☐ Local professional services

(1 point)

☐ Other – please describe:

(1 point)

## Enforcement

- Architectural elements will be secured through the Development Permit.
- Contractors will be confirmed through the Building Permit.

## Staff comments

At a later date applicant will need to provide details as tot he selected choices. As a result, scoring is conditional

Score 2 /3

**EC11****(3 points possible)**

Does your project include any innovative economic sustainability aspects not captured?

☒ Yes

☐ N/A

If yes, please describe:

(up to 3 points)

Relative to its current condition the proposed develop proposes to offer more services for its residents and its surrounding community. The proposal identifies retail targeted towards pharmacy, dentists, doctor offices and maker spaces all intended to bring services to the area making for a more sucessful and diverse retail area and plaza.

**Enforcement**

– Will depend on the type of innovation, determined by staff.

**Staff comments**

"proposal identifies retail targeted towards pharmacy, dentists, doctor offices and maker spaces" these are not innovative. See other applications that include culinary, theatric, or creative spaces

Score  /3

**EC12**

Does your project face any unique site constraints unique that limit economic sustainability achievement?

☐ Yes

☒ No

If yes, please describe:

**Enforcement**

– N/A

**Staff comments**

**EC13****(3 points possible)**

**Summarize the project's economic sustainability contributions including the performance criteria in this Report Card and additional elements not previously captured here:**

The project is designed for economic values that reflect the economic sustainability goals of the Port Moody Sustainability Report Card including increased economic vitality, reduced public expenditure on commuting and increased business confidence.

The development incorporates greenery and wide sidewalks to encourage pedestrian movement in order to prioritize walking, cycling, and transit-use over single occupancy vehicle use. Locating services in close proximity to public transit represents an opportunity for the development to serve as a regional destination that attracts people and contributes to the local economic growth of Port Moody.

The project is proposing a variety of spaces in addition to housing. By providing retail spaces, and other commercial service space types, there are will be more opportunities to live work and play in the neighborhood and contribute to Port Moody's local economy.

**Enforcement**

– Highlighted in Council report

**Staff comments**

Staff recognize the incorporation of greenery and wide sidewalks to encourage pedestrian movement in order to prioritize walking. However, aside from proposed bicycle parking a lack of cycling infrastructure is apparent.

Furthermore, The application is lacking in provided office space which is important to the city.

Lastly, While applicant has proposed retail and other commercial service types, many other applications have done the same while also including innovative businesses or proposed spaces.

Score **1** /3Total Economic Sustainability Pillar Points = **41** /93

### 3.Environmental Sustainability

#### Natural Environment

##### EN1

(20 points possible)

Does the project protect and enhance the urban forest, prioritizing tree retention and planting of native or adaptive tree species which provide multi-storey habitat (groundcover, shrubs and trees) to increase ecological value, biodiversity, and resilience to climate change impacts?

☒ Yes

☐ No

☐ N/A

If yes:

Outline the following:

Number of existing significant mature trees protected on site  
(i.e., mature trees over 40 cm DBH):

0- None within site (up to 5 points)

Number of existing trees over 10 cm protected on site:

0- None within site (up to 5 points)

Replacement tree ratio: >93:1 (93 proposed trees) (up to 5 points)

(Note: Native tree species are preferred for areas immediately adjacent to Environmentally Sensitive Areas)

- Trees planted on-site: 93
- Trees planted off-site: Under review through land swap
- Cash-in-lieu:

Existing canopy cover (%): 0

Proposed canopy cover at 20 years post development (%): 19%- Targeted

If canopy cover is the same = 3 points

If proposed canopy cover exceeds existing = up to 5 points

Demonstrate ability of trees to reach full maturity.

Check all that apply:

(up to 5 points)

- ☒ Adequate soil volume as determined by the Canadian Landscape Standard (2 points)
- ☒ Designated space for significant trees/stand of trees to reach full maturity (2 points)
- ☒ Proximity to infrastructure (e.g., Building(s), power lines) (1 point)

#### Resources

[Tree Protection Bylaw](#)

[I-tree Canopy](#)

[Canadian Landscape Standard](#)

New canopy cover is calculated based on the type of trees that are being planted, at 20 year maturity.

Large Canopy Trees provide 125 m<sup>2</sup> per tree (e.g., Douglas Fir, Deodor Cedar, Red Oak)

Medium Canopy Trees provide 50 m<sup>2</sup> per tree (e.g., Evergreen magnolia, Honey locust)

Small Canopy Trees provide 25 m<sup>2</sup> per tree (e.g., Japanese maple, Giant Dogwood)

Sum Total Species Canopy Area for all proposed species and divide by gross site area to obtain mature canopy coverage percentage

#### Enforcement

– Elements on Landscape Plans will be subject to securities.

– Tree Protection Covenants may be applied.

Score  /11

## EN13

(11 points possible)

Does the project incorporate measures to support and increase active transportation?

☒ Yes

☐ No

If yes, check all that apply:

(up to 11 points):

- ☐ Connects to existing pedestrian/cycling routes and priority destinations (1 point)
- ☒ Improved crossings of busy streets (1 point)
- ☒ Improved local pedestrian routes, local bike networks/trails (1 point)
- ☐ Safe, secure, accessible, and sustainable footpaths (1 point)
- ☒ Pedestrian clearway sufficient to accommodate pedestrian flow (1 point)
- ☒ Covered outdoor waiting areas, overhangs, or awnings (1 point)
- ☒ Pedestrian scale lighting (1 point)
- ☐ Pedestrian/bike only zones (1 point)
- ☒ Improves connections to transit (bus/SkyTrain/ West Coast Express) (1 point)
- ☐ Other – please describe: (up to 2 points)

Primary bike route on St. Johns connected to through Electronic Ave and Buller St.

## Greenhouse Gas Emissions and Energy Reductions

## EN14

(12 points possible)

Does the project provide a low carbon energy system (LCES), which prioritizes on-site local energy systems that provide heating, cooling and hot water heating? (Note: systems should meet a Coefficient of Performance of 2 or greater) Examples include: solar; district energy; heat pump; or geo exchange.

☒ Yes

☐ No

If yes:

Describe the system type:

(up to 10 points)

- Heating mechanical system (up to 5 points)
  - Description: Centralized Heat Recovery ASHP
  - Fuel source (e.g., electricity, renewable etc.): Electric
- Hot water mechanical system (up to 3 points)
  - Description: ASHP w. nat gas back-up (auc + Top Up)
  - Fuel source (e.g., electricity, renewable etc.): Elect w. gas back-up
- Cooling mechanical system (up to 2 points)
  - Description: Centralized ASHP
  - Fuel source (e.g., electricity, renewable etc.): Electricity

Does the system use refrigerants with low global warming potential (GWP)?

☒ Yes

☐ No

☐ N/A

If yes, check the low GWP system being installed: (up to 2 points)

- ☒ Centralized system (e.g., communal heat pump) using ammonia, R744, water, CO2, R1234ze, or R1234yf, R454b, R513a, R32, R410a, R407c, R134a (2 points)
- ☐ Distributed system (e.g., VRF) using R32 or equivalent (2 points)
- ☐ Individual system (e.g., split or individual heat pump) using R290 propane, R744, or R134a (2 points)
- ☐ Other (up to 2 points)

How will the project mitigate refrigerant leakage?

Centralized system should help keep refrigerants concentrated and contained to a single area easier to identify and maintain leaks.

## Staff comments

## EN22

Does your project face any unique site constraints unique that limit environmental sustainability achievement?

☐ Yes

☐ No

If yes, please describe:

EN23

(3 points possible)

Summarize the project’s environmental sustainability contributions including the performance criteria in this Report Card and additional elements not previously captured here:

The project transforms the site from asphalt parking lots to a vibrant mixed-use community. The development enhances the urban forest through reintroduction of native or adaptive plant species that provide multi-story habitat in addition to increasing biodiversity. Bird-friendly principles will be integrated in the project’s landscape design. The tree canopy cover is increased, and natural shading elements and greenroofs are integrated into the overall site design, contributing to the reduction of localized heat island effect.

The project is designed with a high-performance envelope that prioritizes passive design strategies to reduce overall building energy demand. Energy will be conserved through utilization of a Low Carbon Energy System and energy efficient heating, cooling and lighting systems.

Embodied carbon will be reduced by optimizing the structural design to reduce the size of elements where possible and eliminate transfers. In addition to structure, low carbon envelope materials will be explored using the EC3 tool and incorporated into the final design where viable.

The development promotes active transportation by designing a pedestrian oriented neighborhood. Active and public transportation including walking, cycling, and transit is encouraged in order to reduce greenhouse gas emissions from transportation.

Designing for resilience is a priority. The development will explore potential risks and integrate design measures associated with coastal flooding, overheating, wildfire smoke and increased rainfall which are typical risk factors for the Port Moody area.

Enforcement

– Highlighted in Council reports.

**Summarize the project's social sustainability contributions including the performance criteria in this Report Card and additional elements not previously captured here:**

The project is being designed for social values that reflect the social sustainability goals of the Port Moody Sustainability Report Card:

1. Improved quality of life
2. Increased both real and perceived security & safety
3. Promoted social equality and stability
4. Increased cultural vitality
5. Social interaction and civic pride

The landscape spaces incorporate a art and culture plaza designed to express the social values of the project, food, beverage retail, and play spaces supporting different purposes, for example interaction zones, exercise activities and play.

Social and physical wellness is promoted through construction of high-quality public and private amenities including the transit plaza, daylit creek and fitness facilities, ensuring the health and wellbeing of occupants living on site.

**Total Social Sustainability Pillar Points =  /165**

## Glossary of Terms

---

**Accessible housing:** Housing designed and constructed to be universally accessible to people of diverse ages and abilities.

**Adaptable unit:** A dwelling unit that provides flexible design features that meet BC Building Code minimum requirements; it can be adapted to meet the changing needs of any occupant for reasons of disability, lack of stamina, and progressing through different life stages to support independent living.

**Accessible housing/unit:** Housing with fixed design features to enable independent living for persons with disabilities, such as those in wheelchairs.

**ACH:** Air changes per hour.

**Affordable market housing:** Housing that is affordable to moderate income households achieved through tenure, location, reduced parking, modesty in unit size, level of finishing, and design and durability over time as the buildings age.

**Beautification:** The process of making visual improvements appropriate to a specific place, including but not limited to building facades, landscaping, decorative or historic-style street elements, selection of paving/fencing materials and their treatment, etc. Improvements contribute to Port Moody's reputation as City of the Arts in a sustainable manner.

**BC Energy Step Code:** BC Energy Step Code is a voluntary provincial roadmap that establishes progressive performance targets (i.e., steps) that support market transformation from the current energy-efficiency requirements in the BC Building Code to net zero energy ready buildings.

**Brownfield:** A term used in urban planning to describe land previously used for industrial purposes or some commercial uses where the expansion, redevelopment, or reuse of the property may be complicated by the potential presence of a hazardous substance, pollutant, or contaminant.

**Car/Bike share network:** Arrangements between two or more persons to share the use of a vehicle or bicycle for a specified cost and period of time.

**Character-defining elements:** The materials, forms, location, spatial configurations, uses, and cultural associations or meanings that contribute to the heritage value of a historic place, which must be retained to preserve its heritage value.

**Crime Prevention Through Environmental Design (CPTED):** The design and effective use of the built environment to reduce the incidence of crime and improve the quality of life.

**Coastal Flooding:** A flood is a general and temporary inundation of normally dry land areas. When a coastal process—such as waves, tides, storm surge, or heavy rainfall from coastal storms—produces that flood, it is called a coastal flood. Coastal areas, like all areas, can also flood from high rainfall or overflowing streams.

**Coefficient of Performance (COP):** Is a ratio of useful heating or cooling provided to work (energy) required. Higher COPs equate to higher efficiency, lower energy (power) consumption and thus lower operating costs.

**District energy systems:** A system that uses renewable energy to pipe energy to buildings within a specified area for space heating, hot water, and air conditioning.

**Ecological inventory:** An inventory that identifies the ecological values in a natural habitat and is usually the first step in an environmental impact assessment.

**Electric vehicle (EV):** An automobile that uses one or more electric motors or traction motors for propulsion. An electric vehicle may be powered through a collector system by electricity from off-vehicle sources or may be self-contained with a battery or generator to convert fuel to electricity.

**Embodied greenhouse gas emissions:** Embodied emissions refers to the greenhouse gas emissions created in various phases of a building or piece of infrastructure's full life cycle (e.g., material extraction, manufacturing, construction, maintenance, and end of life/disposal).

**Environmentally Sensitive Areas:** Land designated as areas that need special protection because of its environmental attributes, such as rare ecosystems, habitats for species at risk and areas that are easily disturbed by human activities. Refer to Map 13 of OCP.

**Greenfield:** Undeveloped land in a city or rural area either used for agriculture or landscape design or left to evolve naturally. These areas of land are usually agricultural, or amenity properties being considered for urban development.

**Greyfield:** Economically obsolescent, out-dated, declining, and/or underutilized land, often with the presence of abundant surface parking.

**Greywater:** Wastewater from lavatories, showers, sinks, and washing machines that do not contain food wastes and that can be reused for purposes such as irrigation or flushing toilets.

**Habitat corridor:** Habitat areas, generally consisting of native vegetation, linking with larger areas of similar wildlife habitat. Corridors are critical for the maintenance of ecological processes, providing food, and allowing for the movement of animals and the continuation of viable populations.

**Heat island effect:** Heat islands form as vegetation is replaced by hard surfaces to accommodate growing populations. These surfaces absorb, rather than reflect, the sun's heat, causing surface temperatures and overall ambient temperatures to rise.

**Heritage rehabilitation:** The action or process of making possible a continuing or compatible contemporary use of a historic place through repair, alterations, and/or additions while protecting its heritage value.

**Heritage restoration:** Returning a historic place back to how it looked at any time in its past.

**Invasive plant species:** An invasive plant is a non-native species whose interaction causes economic harm, harm to human health, and/or environmental harm.

**Light pollution:** Brightening of the night sky caused by streetlights and other man-made sources, which has a disruptive effect on natural cycles and inhibits the observation of stars and planets.

**Market rental housing:** market rent is the rent that an apartment, without rent or income restrictions or rent subsidies, would command in the open market considering its location, features, and amenities.

**Naturescape planting:** Landscaping with species that are naturally adapted to local climate, soils, predators, pollinators, and disease and, once established, require minimal maintenance.

**Non-human companion:** Means any domestic or feral pet under the care, custody, or ownership of a person.

**Non-market rental housing:** Subsidized rental housing for those unable to pay market-level rents including, but not limited to, public housing owned and operated by government agencies, non-profit housing owned and operated by public and private non-profit groups, and co-operative housing owned and managed by co-operative associations of the residents.

**On-site power generation:** The ability to generate power without transporting it from its source to where it can be utilized.

**On-site renewable energy generation:** The generation of naturally replenished sources of energy, such as solar, wind power, falling water, and geothermal energy.

**Lock-off suites:** Lock-off units are self-contained units which are smaller than the principal dwelling unit. Each unit must have direct access to a hallway, corridor or the outside, and a shared internal door which can be locked enabling both units to be independent.

**Low albedo:** Albedo is the measure of the reflectivity of a material. A high albedo means it reflects a lot of light and a low albedo means it absorbs a lot of light.

**Low Carbon Energy System:** Low carbon energy systems (“LCES”) supply heat energy primarily derived from highly efficient and renewable sources in order to provide space heating and conditioned ventilation air for buildings seeking to achieve low greenhouse gas emissions. These systems may also provide domestic hot water and cooling service.

**Passive design:** An approach to building design that uses the building architecture to minimize energy consumption and improve thermal comfort.

**Public space:** A social space that is generally open and accessible to people.

**R-2000-Certified New Home:** Best-in-class, energy-efficient homes with even higher levels of energy efficiency than ENERGY STAR-qualified new homes, as well as clean air and environmental features.

**Sea Level Rise:** Sea level rise is an increase in the level of the world's oceans due to the effects of global warming.

**Sequestered carbon:** a natural or artificial process by which carbon dioxide is removed from the atmosphere and stored.

**Smart technology:** Technologies that allow sensors, databases, and/or wireless access to collaboratively sense, adapt to, and provide for users within the environment.

**Statement of significance:** The first essential step in any conservation project, which involves identifying and describing the character-defining elements; it is important in defining the overall heritage value of the historic place. Refer to the Standards and Guidelines for the Conservation of Historic Places in Canada (see Resources glossary).

**Streetscape:** The visual elements of a street, including the road, adjoining buildings, sidewalks, street furniture, trees, and open spaces that combine to form the street's character.

**Storm water management plan:** The management of water occurring as a result of development or precipitation that flows over the surface into a sewer system.

**Transit oriented development (TOD):** A mixed-use residential and commercial area designed to maximize access to public transportation; it often incorporates features to encourage transit ridership. A TOD neighbourhood typically has a centre with a transit station or stop (train station, metro station, tram stop, or bus stop), surrounded by relatively high-density development with progressively lower-density development spreading outward from the centre. TODs generally are located within a radius of 400 to 800 metres from a transit stop, as this is considered to be an appropriate distance for walkability.

**Triangulation:** Triangulation is spatial design that gives people a reason to be in the space. In order to promote public interaction, common areas should contain amenities people don't have in their private residences such as a splash pad or play structure with triangular configuration in mind.

**Universal access:** This term refers to broad-spectrum ideas meant to produce buildings, products, and environments that are inherently accessible to both people without disabilities and people with disabilities.

**Urban infill:** An urban planning term that refers to new development that is sited on vacant or undeveloped land within an existing community, and that is enclosed by other types of development.

**Urban forest:** The total collection of trees and associated plants growing in a city or town. It includes trees in parks and yards, along roadways and paths, and in other areas, both on public and private lands.

**Urban vitalization:** The urban planning process of rehabilitating a place or “taking a place to a higher level” using a community-building process (early stage community involvement) to define the key characteristics that make a place unique or special; and applying the concepts of urban conservation to leverage a community’s assets, most often in accordance with approved City plans.

**Viewscape:** The natural and built environment that is visible from a viewing point.

**Walkability:** The extent to which the built environment is friendly to the presence of people living, shopping, visiting, enjoying, or spending time in an area; improvements in walkability lead to health, economic, and environmental benefits.

**Xeriscaping:** Refers to landscaping and gardening in ways that reduce or eliminate the need for supplemental water from irrigation. Xeriscaping refers to a method of landscape design that minimizes water use.
