**Subject:** City Hall Lighting Request - Stomach Cancer Awareness

Good day,

I am a local Vancouver-based volunteer with My Gut Feeling - The Stomach Cancer Foundation of Canada and I am writing to request a special lighting of City Hall on November 30th for Stomach Cancer Awareness Day.

Stomach Cancer Awareness Day is an annual event marked each year by lighting landmarks across Canada in periwinkle blue to show support for the patients, survivors, caregivers and medical professionals battling the disease.

The mission of My Gut Feeling is to provide support, awareness, education, information and advocacy for those impacted by stomach cancer.

More information can be found on our website: [mygutfeeling.ca](http://mygutfeeling.ca)

Colour request: Blue (or specifically RGB 170, 178, 224, Hex - #AAB2E0)

Thank you for your consideration,

Alana Stilla
