Date: May 19, 2020
Submitted by: Environmental Protection Committee
Subject: Salmon-Safe BC

Purpose
To provide Council with information regarding a resolution passed by the Environmental Protection Committee requesting the inclusion of Salmon-Safe BC standards in the Sustainability Report Card.

Recommended Resolution

THAT the report dated May 19, 2020 from the Environmental Protection Committee regarding Salmon-Safe BC be received for information.

Background
At the May 11, 2020 Environmental Protection Committee meeting, the Committee received a presentation from the Program Coordinator of Fraser Basin Council’s Salmon-Safe BC Program and learned of the opportunity to include Salmon-Safe BC standards to the Sustainability Report Card. The Committee passed the following resolution:

EPC20/009
THAT Salmon-Safe BC standards be included in the Environmental Section of the Sustainability Report Card.

Discussion
The Salmon-Safe BC program recognizes land management practices that enhance and protect salmon habitat and water quality, and recognizes that developments and activities, even those not immediately adjacent to streams and rivers, have long-term impacts on fish and other aquatic species. The Program includes peer-reviewed certification programs that ensure best practices to mitigate watershed impacts on salmon are in place and that salmon habitats are considered in planning. The Environmental Protection Committee noted that incorporating Salmon-Safe BC standards into the Environmental Section of the Sustainability Report Card would ensure riparian areas are protected. It should be noted that this recommendation is independent of the committee’s review of the Sustainability Report Card, which has yet to take place.
Other Options
1. THAT the report dated May 19, 2020 from the Environmental Protection Committee regarding Salmon-Safe BC be referred to staff for information.
2. THAT the report dated May 19, 2020 from the Environmental Protection Committee regarding Salmon-Safe BC be referred to staff for action.

Financial Implications
Further information on financial implications would be provided by staff should this report be referred to staff for action.

Communications and Civic Engagement Initiatives
Further information on communication and civic engagement requirements would be provided by staff should this report be referred to staff for action.

Council Strategic Plan Objectives
Including Salmon-Safe BC standards in the Sustainability Report Card aligns with the 2019-2022 Council Strategic Plan Objectives:

- maintain and enhance Port Moody’s natural and built assets while reducing the impact on our planet;
- expand and enhance policies to guide environmental goals and sustainability programs; and
- provide leadership in climate change by thinking globally and acting locally.
