Dear Red Fox Healthy Living Society,

It is our pleasure to write this letter of support for the Creative Cafe project being proposed to the council of Port Moody by the Red Fox Healthy Living Society.

MetroVan Repair Cafes is all about building stronger, more inclusive communities, empowering people with knowledge, and educating and exploring environmental sustainability with community knowledge and creativity. Having a Repair Cafe component at the Creative Cafe is a perfect fit, building an inclusive environment where youth, together with a community, can learn and explore healthy, economical, and creative ways to repair household items and lead the way to a more sustainable future.

MetroVan Repair Cafes will bring our extensive experience in running repair cafes to guide, support, and mentor a team of local community members to start and maintain a local repair cafe.

We look forward to working with Creative Cafe, and creating a healthier community for everyone.

Sincerely,

Yining Sun
